It was the reason to take part in this project. I did not expected that in the place I live I can spend one of my best holidays. Fantastic young people, fantastic atmosphere, interesting activities. I like acting in dramas or performances, entertaining people, listening to all kinds of good music. I am also interested in IT and new technologies. Our project gave me the possibility to know how our tradition and culture (I mean the European one) developed from medieval ages till the age of new technology. I could also feel for a moment like a real artist. It was a great time with wonderful people and experiences.

Marta Rzemieniewska 15 years old

I am a student of Public Gimnazjum no. 2 in Mława. Art is very important for me to express myself. I like dancing, but till our exchange I had no experience with "serious" painting. It was new experience but also a new artistic challenge. I would like to have the chance to take part in other international projects- it is an unforgettable experience. I am very sorry that our exchange has just finished.
